

AMENDMENTSIN THE SPECIFICATION:

a1 Page 54, line 7, before the word "Exemplary" please add the sentence: The units associated with Waste Contamination Mass are "mass units" calculated as described in more detail in the Calculations section, below. --

Please insert the units --cm²-- after the equation "mArArea" on line 1 of the chart on page 77 of the specification.

Please insert the words --mass units-- after the equation "(mArArea X mArGV)/255" on line 1 of the chart on page 77 of the specification.

Please insert the units --cm²-- after the number "5.65" on the last line of the chart on page 77 of the specification.

Please insert the words --mass units-- after the number "5.24" on the last line of the chart on page 77 of the specification.

IN THE CLAIMS:

Please amend the claims as follows:

- sub a 28. (Amended) A disposable article adapted to be worn by a wearer comprising:
- one or more compositions for enhancing the removability of fecal waste from the skin of the wearer, said one or more compositions being available to at least a portion of one of said fecal waste and said skin of said wearer;
- wherein said one or more compositions provide one or more of the following as determined by the test methods set forth in the specification:
- a) a mean Waste Contamination Area of less than about 15 cm²;

b) a mean Waste Contamination Mass calculated from an equation \sum_{L0}^{Ln}
 $(mArArea \times mArGV)/255$ of less than about 14 mass units.

29. (Amended) The disposable article of Claim 28 wherein said one or more compositions provide a mean Waste Contamination Area of less than about 12 cm².

a3
 30. (Amended) The disposable article of Claim 29 wherein said one or more compositions provide a mean Waste Contamination Area of less than about 10 cm².

conc'l
 31. (Amended) The disposable article of Claim 29 wherein said one or more compositions provide a mean Waste Contamination Mass calculated from the equation \sum_{L0}^{Ln} $(mArArea \times mArGV)/255$ of less than about 10 mass units.

32. (Amended) The disposable article of Claim 31 wherein said one or more compositions provide a mean Waste Contamination Mass calculated from the equation \sum_{L0}^{Ln} $(mArArea \times mArGV)/255$ of less than about 8 mass units.

33. (Amended) The disposable article of Claim 31 wherein said one or more compositions provide a mean Waste Contamination Area of less than about 12 cm² and a mean Waste Contamination Mass calculated from the equation \sum_{L0}^{Ln} $(mArArea \times mArGV)/255$ of less than about 10 mass units.

a4 sub 6
 38. (Amended) A method of enhancing the removability of bodily waste from the skin of a wearer of a disposable article, the method comprising:
